

Coloured PAR

Coloured mains voltage halogen PAR16 lamps with the crisp appearance of a low voltage dichroic without the need for transformers, available in a choice of colours to enhance décor or highlight features. The colours created are by use of glass layered filters, not to be confused with cheaper colour sprayed lamps.

- UV stop front cover glass
- 2,000 hour life
- GU10 cap
- Dimmable
- Internally fused for safety

The switch-on surge of a mains voltage halogen lamp is higher than that of an incandescent lamp and hence it may be necessary to reduce the total wattage per circuit to avoid nuisance tripping of associated breakers. The use of dimmers will exacerbate this problem and, in extreme circumstances, it may be necessary to reduce the installed wattage by 50% of the breaker's rate capacity. If in any doubt, please contact a qualified electrician.
