

KETO PLUS HIGH BAY

IP65 rated high powered LED highbay light

PHOEBE
LED

Instruction Sheet - Lens Swap

Instructions

Top view of the clip

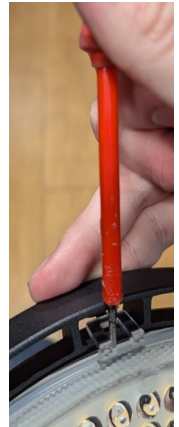

Bottom view of the clip

Take a note of where all 13 lens clips are holding it to the base of the fitting.

Apply force to the tab until it comes away from the clip on the base.

Once the Clips on the outer-edge are loose, pull away slightly from the base using a screwdriver.

PHOEBE
LED

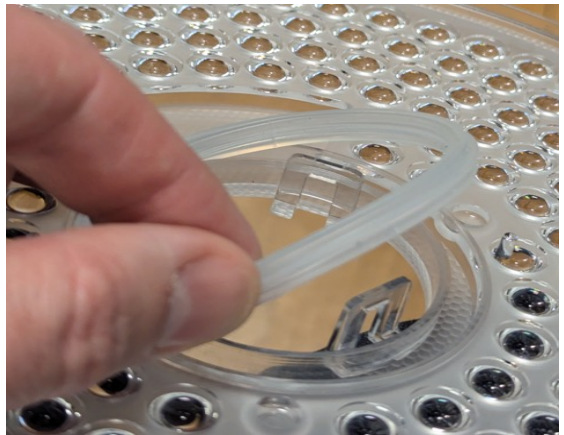

Instruction Sheet - Lens Swap

Use a screwdriver to apply force to the three middle tabs until they come away from the base.

With a small amount of force, the lens should now come away from the base.

Remove both the inner and outer IP65 rings from the old lens to install on the new fitting

Note – warranty is void if this step is missed.

Instruction Sheet - Lens Swap

Ensure the space for the connection terminals on the new lens is lined up with the terminals on the LED board, and lower into place.

Secure the outer edge clips. Listen for the audible 'click' to indicate correct lock.

Then likewise with the inner edge clips.

The new completed unit is ready to install.
